

CATEGORY : Forestry

PATTERN : FORESTECH (WIDE BASE)

- New generation of tyres, the Forestech, suitable for use on forestry harvesters and forwarders, provides excellent traction and self-cleaning capability.
- The strong casing construction guarantees heavy load carrying capabilities and the steel belts protect the tyre from punctures and damages.
- The reinforced bead and shoulder area coupled with unique tread compound for excellent service and longer life.

NEW SIZE RELEASE

Application: Use on Forestry Harvesters and Forwarders
